[wpdm_package id='45346?']

The number of private debt funds in market has been rising consistently over the past five years, but the last quarter has seen a marked acceleration. There are 592 funds in market as of April 2021, a 36% increase compared to January 2020. The funds are targeting an aggregate \$300bn, a 56% increase over January last year. Between 2016 and 2020 growth in both number of funds in market and capital targeted averaged 13%.
